

Accountifi = Accounting + Automation
 Making the lives of Accounting and
 Finance professionals easier!

SECURING THE PAYROLL

Find out how we helped a
 Security Consultancy in England
 manage their payroll system!

AT A GLANCE

Challenges

- Payroll not tracked
- Incorrect figures entered in the books for amounts to be received from customers

Benefits

- More than 30 hours saved in payroll tracking
- Error-free bookkeeping services
- Customer reconciliations done on time with the help of customised bots

“Accountifi understood our need to maintain an uptight payroll system. Because of their services, it is now easier than ever to track salary expenses and also ensure that our guards who work hard get paid on time. They also make sure to keep our books error-free and updated every month, leaving us more time to secure the locations we serve.”

Senior Manager
 Security Consulting company

BEFORE ACCOUNTIFI

Our clients are Security Consultants from England and Wales who provide security guard services to several companies. Everyday, they coordinate with a large number of people, assess risky situations, train their security team for using the latest technology and so on.

As they managed a lot of workers spanning large areas, it became difficult for them to keep an eye on whether everyone was remunerated duly, and if their payroll was up-to-date.

AFTER ACCOUNTIFI

We understood that our client needed a stress-free solution that keeps tabs on the payroll so that they had more time to focus on training their teams.

We catered to their specific needs in the following ways:

- Automated their payroll to ensure that their teams received their salaries on time, every month.
- Developed bots to update and maintain their books so that no expense goes unaccounted.
- Used bots to flag any pending amounts to be received from their customers.

By automating their payroll and bookkeeping with us, the time taken to complete those tasks reduced from 2 days to just a few hours per month! Our clients are relaxed as they could now track their payroll and receipts with ease!
